## Business Details regarding envelopes :

Please provide a Word or Excel LIST in a simple 16 point font EXACTLY the way you want the address to be written. Information is an address label with 3 or 4 lines (above each other - NOT spread in rows horizontally please!)

Add 10% extra envelopes for address changes, additions and corrections.

Additional line costs in the address include a person's name, address information, such as "Apartment 5A", or a foreign country's name.

Same color spread ZIP code adds 10 cents. With a dot or decorative mark in a different color, add 30 cents.

The usual envelope format is flush left or slightly indented, leaving an uneven "rag" right edge. Centering adds \$.50 per envelope.

## OTHER CALLIGRAPHY INFORMATION AND COSTS :

I am happy to mail you samples written in your style preferences, so you can experience the thrill of opening an envelope with your name artistically written by an artist, not a computer.

Local Clients, you are invited to visit my studio, to view my lettering, discuss your project, explore possibilities, and take home a sample.

Original layout and lettering for invitations, certificates, poems and such are each unique. Custom pricing is necessary.

Of course I will give you an estimate when you share the wording and description of how you see the final piece.

Custom ink colors and all specialty pens add several dollars, usually \$10 - \$25

Escort cards - cost slightly more than place cards for the table information to be added. Cost per card ranges from \$.60 - \$2.50

Table number cards cost several dollars determined by many factors. We will discuss your design to determine the price. \$2 - \$10
